Question: Please comment on the quality of support the teaching assistant provided in the tutorial/lab sessions:

Response

Awesome guy, & really helped PP. Pity only few people show up in the tutorials. He was even willing to help with non-class inquiries like "Grad school"

Quality was good, support was good, but he came late to one tutorial ~~when~~ for quiz 3

Amr is well prepared, answers questions (promotes question asking, gives a large amount of examples — explains clearly, encourages students to try problems. Overall 10/10 would recommend
