Hi Amr,

Just wanted to share with you the ECE413 student feedback (your average numerical score was 6.83/7, median was 7/7):

- Helpful and adaptive!
- Approachable & good explanationsÂ
- Extremely good at teaching the concepts in various ways to ensure everyone can fully understand the concept. He was very patient and is often available to answer any questions we might have. I would definitely recommend him again to TA this course, especially for the tutorials. Thanks again Amr! :)
- Very prepared. I like his mix of review content and examples. Promotes asking question and actually answers in a clear and understandable manner.
- Amr conducted the tutorial in an organized and clear manner. He went through the important concepts at the beginning of each tutorial before going into the exercise problems. He addressed all of the questions that students raised, and the answers were really helpful for our understanding. I also emailed Amr a couple times with questions, and he answered in a timely manner.
- "* Patient
- * Clear explanations during tutorials
- * ensures students understands the concepts"
- Amr was a very helpful TA! He was always happy to answer questions, and was very friendly and approachable. He had a very good understanding of the topics covered, and was always well-prepared to answer all technical questions.
- "- A super friendly and helpful TA!
- - Provides students with Review Notes which are a good summary of what is covered in lectureÂ
- - Quick to respond to emails and provides detailed answers to questions (solves the question step by step as opposed to jus"
- His tutorials were very helpful. He took the time to poll the class to see what format we would prefer which was great, and the review at the beginning of each tutorial was great to summarize what we learned each week. He was also very helpful with theoretical questions in the labs.Â
- Very good at explaining everything and doing requested questions.
- He's very thorough and detailed towards his explanations and takes his time to explain a difficult concept.Â
- Very responsible TA!
- very helpful TA
- Best TA!

Thanks for all your help--you clearly had a really positive impact on the students' learning experience, and I know it's been tough with the move to online but you handled it very well.

-Zeb
